

Wild Rumpus Feat. Cosmo & Gary Lucas With Beardyman 'Rock The Joint' (Bitches Brew)

The third single from this remarkable venture continues the stunningly unique approach taken by DJ Colleen 'Cosmo' Murphy and former Captain Beefheart guitarist Gary Lucas on their previous two outings - last year's 'Musical Blazeup' and the jawdropping 'Purple Somersault'. Here they're joined by none other than Beardyman, who piles into their swirling maelstrom of psychedelic blues and acid grooves to add severely to the whoopee quotient. The original heats up as it progresses, invoking anything from Alabama 3 to Seasick Steve shot with Berlin techno sensibilities but Gary's stellar guitar-work leaping from peak to peak . Ultimately it's a joyful but truly different celebration which will have mass smiles breaking out. There's also a groovy dub from Reverso 68 for the more straightforward floors.
